Sample Maps Profile Check: 10 Dental Clinics in Sharjah

What this is

A check of 10 dental profiles on Google Maps. It shows the kind of look I take at a clinic's profile before I suggest any fix. No clinic names are in it.

How I checked

Computer, private window, 9 November 2026: searches "dentist Al Majaz Sharjah" and "dentist Al Nahda Sharjah" on Google Maps.

I skipped sponsored results and opened the first five clinics in each list. Clinics are named A to J in the order I saw them.

Phone, 10 November 2026: I opened the same 10 clinics again and looked for a treatment list.

What to keep in mind

This is a few days and 10 clinics. It is not all of Sharjah.

What shows on Google Maps depends on the device. Eight clinics showed a treatment list on a phone. None showed one in the About tab on a computer.

"Written description" means a paragraph the owner wrote about the clinic. Lists like wheelchair access do not count.

"Photos" are approximate counts shown on the profile.
