Sample Website Check: 7 Sharjah Dental Clinic Websites

What this is

A quick check of 7 dental clinic websites in Sharjah. It shows the kind of first look I take before a full audit. No clinic names are in it.

How I checked

The 7 clinics are the ones from my Google Maps check (Al Majaz and Al Nahda) whose websites opened. Letters match the Maps check sample.

Checked in November 2026. Mobile speed: Google PageSpeed Insights, Mobile tab, one run per site.

Call button: I opened each site on a phone and looked at the first screen. Cost or insurance: I looked for it on a treatment page.

What to keep in mind

Seven clinics are a small sample. It is not all of Sharjah.

PageSpeed scores change a little from run to run. One run is a snapshot, not a verdict.

PageSpeed gave no score for one site, so the speed numbers cover 6 sites.

Prepared by Mohammad Moshiur Reza, moshiurreza.com

Website Check: what each clinic site showed on a phone

Clinic	Area	Mobile speed score (PageSpeed)	Call or WhatsApp button on first phone screen	Cost or insurance on a treatment page
A	Al Majaz	65	Yes	No
C	Al Majaz	43	Yes	No
D	Al Majaz	72	Yes	Insurance only
F	Al Nahda	44	Yes	No
G	Al Nahda	No score	Yes	No
H	Al Nahda	51	Yes	No
J	Al Nahda	82	Yes	No

Colour key (speed): blue = 90 or more, amber = 50 to 89, red = under 50 or no score. Google rates 90+ as good and under 50 as poor.

Summary: 7 clinic websites

What I checked	Result	Note
Clinics checked	**7**	
Clinics with a speed score	**6**	PageSpeed gave no score for one site.
Lowest speed score	**43**	
Highest speed score	**82**	
Middle speed score (median)	**58**	
Scores under 50	**2**	Google rates under 50 as poor.
Scores of 90 or more	**0**	Google rates 90 or more as good.
Call or WhatsApp button on first phone screen	**7**	
Cost or insurance on a treatment page	**1**	One site mentioned insurance. None mentioned cost.
